Game Theory

Game Theory II: Advanced Applications

Stanford ONLINE

THE UNIVERSITY OF BRITISH COLUMBIA

Oct 31, 2026

Nicolas Iskandar

has successfully completed the online Specialization

Game Theory and Mechanism Design: From Strategy to Markets

Now that you have completed Game Theory, you stand out with a unique set of skills and knowledge in game theory, network economics, and strategic social systems. This certificate demonstrates your job readiness and can be shared with your professional network. Throughout this program, you've engaged with instructional videos, assessments, and practical exercises, gaining a deep understanding of strategic decision-making, including modeling connected choices; analyzing incentives under uncertainty and over time; and evaluating rules for voting, resource allocation, pricing, and auctions.

Matthew O. Jackson
Professor of Economics
Stanford University

Kevin Leyton-Brown
Professor
Computer Science
University of British Columbia

Yoav Shoham
Professor of Computer Science
Stanford University

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
